Step 1 - Find a suitable Call for Proposals

H2020 ONLINE MANUAL

The Commission publishes on the Participant Portal all the Calls of its research and innovation programmes [H2020](#), and you can search calls from previous programmes ([FP7](#) and [CIP](#)). In addition you can find information about some additional calls in the [Other Funding Opportunities](#) section. If you apply for the first time and do not know yet the programmes, it is useful to read the H2020 Online Manual. It helps you choose the most suitable programme for your area and profile. Besides, you can [search according to your research topic](#) with key words and set filters in the calls list.

Your [National Contact Point](#) can also help you find the most suitable call for your profile. SMEs are in addition supported by the [Enterprise Europe Network](#).

Step 2 - Find project partners or apply as an individual

H2020 ONLINE MANUAL

Collaborative projects: most of the EU funded projects are collaborative projects with **at least 3 organisations** from different EU Member States or Associated countries. Various [partner search services](#) help you to find organisations that would like to participate in the proposals. You can also post your collaboration offers there.

Individual researcher or team: It is also possible to submit your proposal as an individual researcher, team or organisation. Such opportunities are mainly funded under the H2020 **European Research Council (ERC)** grants and the **Marie Skłodowska-Curie actions (MSCA)**, and individual SMEs can apply to the **H2020 SME instrument**.

What is the NCP network?

NCPs are national structures established and... states associated to the framework program... applicants' own languages. The NCP systems can vary from one country to another from highly centralised to decentralised networks, and a number of very different actors, from ministries to universities, research centres and special agencies to private consulting companies.

NCPs are also established in many non-EU and non-associated countries ("third countries").

NCP Services

As the NCPs are national structures, the type and level of services offered may differ from country to country. In general, the following basic services are available in accordance with the [NCP Guiding Principles](#) agreed by all countries:

- Guidance on choosing relevant H2020 topics and types of action
- Advice on administrative procedures and contractual issues
- Training and assistance on proposal writing
- Distribution of documentation (forms, guidelines, manuals etc.)
- Assistance in partner search
- Assistance in partner search

With hundreds of new company profiles added every week, our business cooperation database is one of the world's largest. When you get in touch with the Network, we enter your cooperation offer or request into the database. You will then receive updates on companies interested in the same kind of cross-border business as you.

Meet potential business partners

We also organise matchmaking events across Europe where you can meet potential business partners in person. We schedule meetings for you and help you prepare for them. Matchmaking events often take place at international fairs, which helps keep travel and accommodation costs down.
